

Riviera

Bearing resemblance to Mediterranean architecture, the timber work and stucco finish heighten a feeling of maritime timelessness.

The welcome embrace of the lily pool sets the mood for tranquility. The waft past the frangipani trees bears the scent of heady evenings spent in quiet solitude or intimate companionship. The sighting of the river from every level is therapy for the soul; the boutique courtyard is where you must be at the end of the day.

Features: 2 personal lily pools | River facing terrace | Front and back lawns | 2 dedicated car parks | Open-to-sky courtyard

All the 18 Riviera villas have direct access to the Promenade from their respective front lawns. It will be possible for them to slip into their swimming gear from their own home and walk up to the Promenade swimming pool. Wander aimlessly about the Promenade in front of the villas. Experience the Ganges. Watch as she flows gently by, shaping and reshaping lives. Not just when you are 'out and about' but even as you relax within the comfort of your villa. Sit back as the river becomes a therapeutic presence, relaxing you to a state of bliss.
